

# CHAT CARDS

## What are Chat Cards?

It is a card game created by Think Twice Brasil - TTB to encourage meaningful conversations between young people and their families. It creates a safe, affectionate and fun space for open communication away from screens. There are 24 cards with suggested questions and another 8 blank cards for you and the other participants to complete with your questions.

## How to play?

- Print the sheets below in doubles, in double-sided format, ensuring that one side has the logo and the phrases on the other.
- After printing the sheets, cut the sheets along the dotted lines.
- Gather at least 2 people and find a nice and comfortable place to settle down.
- Store all cell phones in a closed box or place them in another room.
- Commit to deeper responses and care for each other.
- After shuffling and stacking the cards, decide the order of participation.
- The first player starts by turning over a card from the top of the deck, reads it out loud and responds first.
- After the initial player responds, other participants are encouraged to share their answers and opinions on the question.
- During responses, it is important to maintain an atmosphere of respect and openness, without interruptions or judgments.
- The game continues with players turning over one card at a time and answering the corresponding questions.
- The objective is not necessarily to finish all the cards, but rather to enjoy the opportunities for dialogue.
- The game ends when participants decide to stop or when all cards have been used.
- After finishing, participants can continue the discussion on the topics covered during the game, if they wish.

**Important:** In this game there are no winners! The real prize is the quality time spent together, the stories shared, the unusual discoveries and the good laughs that will arise.

Have fun!
